

Dutch for Foreigners

Dutch language online Summer course 2021

Elementary 2

What do you do if you need a doctor? How can you buy a train or bus ticket? What are the opening hours for the shops and what kinds of schools can people attend in the Netherlands? These everyday subjects are dealt with in 'the Green Book', the textbook for beginners. The Green Book contains 43 texts. These texts include the 1200 most common words in the Dutch language, the words that you will use most often.

Elementary 2

During the online Elementary 2 course the second part of the Green Book will be discussed. Also in this course the lessons are chiefly devoted to conversation practice. The objective is to simultaneously develop listening and speaking skills. You will be admitted to the course if you finished the Elementary 1 course successfully or after a placement test.
